Care.  
For good.

# FORTIS EYE INSTITUTE, FMRI, GURUGRAM

*“YOUR VISION, OUR EXPERTISE,,*

## 1 LASIK

LASIK is a safe and effective procedure that corrects common vision problems like near-sightedness, farsightedness, and astigmatism. At Fortis Eye Institute, FMRI, Gurugram, we offer advanced LASIK laser eye surgery to help you achieve just that. By using a laser to reshape your cornea, LASIK reduces your dependence on glasses or contact lens, allowing you to experience the freedom of clear vision without spectacles.

## 2 WHY CHOOSE FORTIS EYE INSTITUTE FOR LASIK?

- **Advanced Technology:** We utilize the latest generation laser technology for more precise correction.
- **Customized Wavefront Treatment:** Our customized wavefront technology creates a personalized treatment plan based on the unique topography of your cornea, leading to optimal results.
- **Experienced Ophthalmologists:** Our highly skilled and experienced ophthalmologists provide you with the best possible care.
- **Focus on Patient Comfort:** We prioritize your comfort throughout the entire LASIK process.
- **Comprehensive Pre-operative Evaluation:** We conduct a thorough preop evaluation to ensure LASIK is the right choice for you.

## 3 ARE YOU A SUITABLE CANDIDATE FOR LASIK?

To be a suitable candidate for LASIK you should be:

- Above the age of 19 years
- Refraction should have been stable for last 1 year
- A detailed eye checkup is done to see if your eyes are fit for the procedure

## 4 CUSTOMIZED WAVEFRONT TECHNOLOGY

Traditional LASIK treatments rely on a general correction profile. At Fortis Eye Institute, we go beyond by using customized wavefront technology. This technology creates a detailed map of your cornea's unique imperfections, allowing for a highly personalized LASIK treatment plan for optimal visual outcomes.

**LASIK is a day care refractive procedure, an investment in your vision. Contact Fortis Eye Institute Team and take the first step towards a life free from glasses and contact lenses.**
